

This Strange World
Prohibition Much Alive
Uncle Sam in Wheat
Those Surprising Russians

By Arthur Brisbane

MR. THOMAS of the British Labor cabinet says the world's trouble is in the midst of great buying power.

Four hundred million people in China, 300,000,000 in India, 140,000,000 in Russia, half the buying population of the world, suddenly stopped buying.

Boycotting silver, which India and China use for money, plus civil war and rebellion, are responsible for part of the trouble. And the United States' boycott of Russia is responsible for part.

This is an extraordinary world, in which too much of everything, too much wheat, coal, copper, sugar, and even too much money, must be destroyed.

Money was lent freely in Wall Street yesterday at 1 per cent on call, and you could borrow for 90 days at 2 per cent.

Some financial genius should know how to use unlimited money, plus unlimited labor, to bring back our vanished unlimited prosperity.

Washington believes that President Hoover's influence will be used to keep prohibition conditions as they are, at least until 1932. The President is said to believe that prohibition should have a further chance to prove that it will work.

Disenfranchisement for actual enforcement employees, about \$17,000,000 a year. Necessary to pay, it costs also what could be a yearly income of \$500,000,000 to the government, now changed to an income of several billions to bootleggers.

Republican politicians believe that prohibition will still be a winning issue in 1932. This consideration, which does not influence the President, has much weight with the politicians in his party.

Mr. Charles H. Kahn, wife of an important New York City banker, head of the women's organization for prohibition reform, says she and her organization have lost all interest in the subject.

It is a sign of the Eighteenth Amendment or nothing, say they.

Women at a "victory luncheon" were supposed to celebrate the defeat of prohibition, applauded.

It is really a "victory of nothing," a will be nothing. Unless something drastic and radical happens, you will get three-quarters of the states to vote for repeal.

Prohibition authorities in Detroit have seized 12 airplanes used for smuggling liquor and 200 bottles have been identified.

A plane can carry as much as 100 cases of whisky, and today when the whisky is so scarce, it is a most profitable smuggling device.

Hand working alone from China and European armies planning a profitable criminal campaign in America plan to pay \$100,000 each for a safe landing on American soil.

The Farm Board has held up a price of American wheat by spending a million dollars a day to buy grain and take it out of the market.

What has been selling at 100 cents and Liverpool at 100 as 15 cents below the American price.

This means that other wheat producing countries have been cheating their wheat into money, and sending it where it will be eaten.

The United States has been using taxpayers' money to buy wheat and store it away, just what that will end is something to think and perhaps worry about.

One plan would be to send the starving Chinese and let them get it, thus getting rid of the surplus and storing up national credit in heaven.

But while we can afford ten billions for nations fighting, we could not afford \$50,000,000 to help for people starving.

Business men, expecting "Russia's experiment" to fail, are starting to buy wheat and store it away, just what that will end is something to think and perhaps worry about.

He finds ten thousand workmen building a gigantic automobile factory near Nijny-Novgorod. American engineers are building a model city around the huge factory, and Russia expects to turn out 500,000 cars a year by 1932.

Russia's engineers, actually talk of building 5,000,000 cars a year later on.

Russia apparently doesn't agree with the outside theory that its experiment is already a failure.

"New England is solid and prosperous. There is no need for alarm," William L. Phillips, regional director of President Hoover's emergency committee.

"New England has suffered less than other sections and will emerge from the depression stronger than ever," The New England Council.

Three sessions followed today of the council, which New Englanders consider the most important of the year.

The council is made up of the governors of the six New England states, and at one time held at Springfield, O.

President Hoover, in a message to the council, praised New England's collective action in meeting present problems.

Phillips, regional director of Hoover's emergency committee, urged New England to take the lead in the nation.

research methods in the economic needs of New England, your encouragement of a more businesslike structure and a more effective industry, and your participation in efforts to help stabilize employment, deserve commendation.

"Collective effort by all elements of your region in meeting economic problems makes strong for success."

All six governors of the New England states attended today the annual meeting of the New England Council, which opened its sessions at the Hotel Statler.

The Council cited these reasons for their failure:

"Fortunes of our railroads and power companies have fallen off less than the average. Our unemployment rates have risen less than in other major industrial areas. Our agriculture suffered from drought and other unfavorable conditions. Our recreational and health and resort resources have been mismanaged."

FRANKS EMERGENCY WORK. Regional Director Phillips called for help in unemployment work from the various state committees.

"There is in my opinion no occasion for alarm for New England is solid and prosperous," he said.

"The situation, however, has arisen in our midst which needs thoughtful attention."

"It is a situation which can be solved only by the cooperation of all elements to compose the New England Council."

COURTESY UNITS AT GERMANY MONITOR

Foreign Minister Declares Relief Will Be Sought Only Under Young Plan

Berlin, Nov. 20 (AP)—Foreign Minister Julius Curtius today told the Reichstag that Germany would not intend to leave the Young plan or depart from its provisions; that the German government fully realized how far-reaching such provision of the Young plan all-voluntary provisions would be and that it would not resort to it only if the burden became such that the German people were in danger of being robbed of their social and moral life.

He made an extended reply to Premier Tardieu of France concerning disarmament.

Dies Suddenly

Noted Maine Man, 73, Victim of Heart Attack at Poland Spring

Poland Spring, Me., Nov. 20.—Stricken with a heart attack, Hiram W. Ricker, one of the best known hotel men in the country and an outstanding figure in Maine for half a century, died yesterday at his home. He was 73.

Distinguished by a full beard and a handsome manner, Mr. Ricker was known throughout New England for his untiring efforts to build up this section of the country. Yesterday he went to Augusta to attend a meeting of the Maine development commission, and was stricken by a slight heart attack at Governor Gardner's office.

He returned to his home at his place here at the famous Mansion House, where he suffered another attack, but apparently recovered.

HEALTH HAD BEEN GOOD. Late in the afternoon, at his home, he was stricken again and died.

Up to yesterday he appeared to be in excellent health and had suffered no previous heart ailments. He planned to leave for New York today to attend the sixth annual New England conference at Boston.

Announcement of his death came as a shock to those attending the conference. At the opening session, Ricker, president of the New England Council, said the following:

"The members of the New England Council extend to you and yours their sincere sympathy. You are a devoted friend of the state and a leader in all that is good and noble in the development of New England along his chosen line."

He was the youngest of the group, the youngest passed this resolution:

Style Show Feature at Bazaar

Florence Crittenton League Conducts Annual Event at Copley-Plaza

THE ANNUAL BAZAAR in aid of the Florence Crittenton League with a fashion show by Junior League girls, debutantes and post-debutantes as a special feature, attracted throngs of prominent people from Boston and its environs yesterday afternoon and evening. The fair continues through today and evening at the Copley-Plaza and provides an excellent opportunity for those who wish to do their Christmas shopping early and at the same time patronize a worthy charity. The tables were most enticing with their gifts and edibles and a sociable get-together was enjoyed by all.

THE ABILE COMMITTEE, headed by Mrs. Guy Carrier with the assistance of Mrs. T. Grafton Abbott and Mrs. Wilbur Grant, were pleased with the large crowds present and the fashion show was a pleasing success. Jordan March supplied the gowns and costumes which were exhibited so beautifully by the young society maidens, among whom were Miss Sally Wambolt, in green jersey suit, ensemble with black fur jacket; Miss Elizabeth Donaham, in brown wool frock; Miss Barbara Young, in green riding habit; Anne Dick, in brown plaid sports frock with short lapel jacket; Barbara Pratt, in black and beige jersey sports frock; and Miss Susan Brewer, in knitted tunic frock in blue.

PEGGY READ was charming in orange and blue skating costume, and Marion Dalton looked fetching in vari-colored tulle sweater and trousers. A bright blue skating costume was smart on Miss Virginia Taylor, and Betty Scott was stunning in black and red skating costume. Rosamond Holton was dear in turquoise blue pajama ensemble and later in black Cretz lace evening gown and velvet wrap with trimming of ermine. Miss Hoffman was a charming bride with Edith Milton as maid of honor and Miss Hunnewell, Miss Wambolt and Miss Holton as bridesmaids.

First of Morning Musicales Succeeds at Hotel Statler

Women Told to Guard Speech

Republicans Urged to Stand Solid Behind Platform of Their Party

By NANCY BREWSTER
Republican women were told they must guard their speech if they wish to retain the integrity of the party, by Mrs. Arthur L. Livermore, president of the Women's National Republican Club of New York, who with three other Republican Club presidents were honored at luncheon by the Women's Republican Club of Massachusetts. Republican women can wreck the party, Mrs. Livermore stated, and so it was up to the Republican women to stand solidly and without reservation behind the party platform. Mrs. Livermore said:

"Once a dignified aspect is placed on the status of politics, it becomes a profession, politics will return to the mud-slinging days before women entered the field."

"If women will be the real salt of the Republican party in the coming years."

MAJ. GUESTS
As Bay State president, Miss Katherine Wood Parker presided and introduced the speakers. At the head table, in addition to Mrs. Parker and Mrs. Livermore, sat Mrs. E. A. Harriman, president of the Washington Women's Republican Club; Mrs. George M. Lorimer, president of the Republican Women of Pennsylvania; Mrs. Mary Cole, president of the Women's Republican Club of Rhode Island. Other guests were Mrs. Nathaniel Thayer, national committee woman from Massachusetts; Mrs. Emma Fall Schofield, president of the Business and Professional Women's Republican Club; Mrs. William M. Butler, first vice-president; Mrs. William H. Colledge, second vice-president, both of the Women's Republican Club of Massachusetts; Mrs. Frank R. Batcher, vice-chairman of the Republican State Committee and Mrs. Franklin W. Hobbs, past president.

The young people of the country haven't been reached, Mrs. Livermore continued. The aid campaign hasn't been interesting for them, but that something must be done, for the future of America depends upon the young voters.

LAUDS HOOVER
Women are apt to be non-partisan by nature, the speaker said, because of inherent individualism and because of the inopportune way they have been taken into political organizations by the men. She lauded President Hoover, so-called individualist faith and unshaken belief in him from the

Three-Quarter Fur Coat Different

By ANN ARDEN

—Boston Evening American Staff Photo.
MODEL FROM L. F. HOLLANDER CO., INC.

IN A SEASON of fitted, flared, elaborated coats, a coat on slim, straight lines, in a supple, with the added distinction of a three-quarter length, is outstandingly smart. Fur follows fabric with a smoothness and facile sublimity this season, not at all limited as to style details or cut.

THE CRAVAT scarf is an ornament, a useful ornament of the useful sports coat. It lies either at side or front. Sleeve details are varied and ingenious. The melon sleeve, cut large just above the wrist and tapering to the cuff by means of top is a good sport style. The sleeve gathered into a fitted cuff is a clever model for the coat of soft fur. Quilted cuffs and flaring cuffs are to be seen. The lego-mutton sleeve is a conservative version is a very new detail.

THE COAT pictured may be worn for almost any daytime occasion, sports, semi-sports or formal afternoon. Its status determined by the hat, frock and accessories ensemble with it. In the very new three-quarter length, it is fashioned of observed lapin d'au brun, and on straight lines. Two large patch pockets are set on each side front. The sleeves are melon shaped, curved to fit the wrist. The collar is interesting—shaped to a neckband, which emerges in long tie ends.

THE BROWN felt toque has a cuff bent curving outward each side, and caught at center front with link of brilliant. The jumps are brown made, as are the pull-up gloves.

WHETHER RABBIT under its Puritan magnanimity, would continue its popularity is a question answered most effectively by shaven lapin coats of smartness and versatility such as this.

WITH THE arrival of brown in the modish chart for fall and winter furs, too, adopt brown tones. Caracul, broadtail, and other fur are shown in dark brown, copper brown, and a lighter brown that somewhat resembles early fall. Long-haired fur in brown are also very good.

"In spite of their doubts, women will be increasingly active politically and with every year play a larger part in political campaigns, gradually forcing the recognition that it is due so large and important a body of voters," Mrs. Lorimer stated.

School Football in "Golden Age," Coaches Think

LITTLE FAULT FOUND CONDITIONS

Editor's Note: This is a summary of a recent series by Bill Connell, school sports editor of the Boston Evening American, on prominent school coaches and their views of the full sport.

By BILL CONNELL
Football is in its "golden age," judging by the statements of the coaches recently interviewed on the grid game.

Not one of the eight representatives of the coaches questioned had any big fault to find with the rules, the game or the players. Most of them were of the opinion that boys do not "burn out" if properly handled. They think that no danger exists in playing football with the right training and equipment.

There are three things, however, which were mentioned by almost every one of the coaches as needing attention if the future of the game is to be safeguarded. First, the coaches all want to see their boys playing teams in their own class. Although the coaches would not complain, it is easy to gather from their words that most of them do not like the idea of sending their teams against eleven out of their own class, as frequently happens when schedules are arranged by someone other than the coach.

School Coaches Seek Welfare of Boys

It is to be noted to the credit of these coaches that the thought of making a great winning record at the expense of the boys is unpleasant. These men are earning a fair part of their yearly income in coaching, yet with most of them it is only a game and they want to watch their boys in action against boys of their own size and age.

While none would suggest any special plan for insuring schedules matching the right teams, they were agreed that a system which would bring together well-matched teams would be the ideal from the standpoint of sport and physical education.

Proper Handling of Players a Necessity

The majority of the coaches agreed that the two other things which must be watched closely are the tendency to overemphasize football with possible harm to the boys who play, and the necessity for the proper handling of the boys by the coaches, so that the youngsters will get the maximum of benefit from football.

Each coach queried had some comment to make on the rules, but all said that it would be good for the game if the rules were altered, without changes.

Dilboys vs. Trojans at Quincy on Sunday

Dilboy Post's eleven will journey away from home when they play the Quincy Trojans, at Fox River Field, Quincy, next Sunday afternoon.

Earlier in the season the Trojans visited Dilboy's home field where they defeated the Dilboy team in one of the fiercest contests ever witnessed in Somerville. Since that game the management of Dilboy's Trojans and Dilboy have received repeated requests that the game be played over.

The thousands of South Shore fans who attend this game will be able to judge for themselves whether or not Jimmie Dilboy is the greatest back in America.

They will also be able to compare Eddie McMahon, captain of Villanova last season and currently mentioned for all-American honors, with their great Eddie Lawrence, former Duxton town man.

Third String Crusaders to Battle Loyola Team

Worcester, Nov. 20.—Holy Cross will use a third-string team against Loyola of Baltimore, Saturday, according to present plans of Capt. John J. McEwan, head coach of football.

While the Crusaders coach is not underestimating the team's opponent, he has confidence in the ability of his third-stringers to gather a win.

It is not likely that any of the first team men will get into the game. They will be asked for the team's major objective game of the season, Saturday afternoon, when they will meet the Loyola team. Ewan began building up a local position. He has lost George Pyno and possibly Ted Himmelfarb.

PORT OF BOSTON

Shipping started seaward after being held in Boston harbor by fog and storm for four days as a result of the port which has been tied up outside by weather conditions, yesterday.

With the weather breaking for the best the waterfront started buzzing with activity, in which there was a lot down during the dead days, as the sun came out and the fog lifted.

Fishermen and freighters got under way after a loss of valuable time.

Five coal trade steamers got under way for Hampton Roads in a cargo of "black diamonds" for the Hob in some of the first sailing.

The push over, jammed with vessels during the storm period, started to clear into more normal conditions.

The Black Point, which vented out in the storm but was forced back, was on the way with her four masted in the first quarter, in the harbor.

Notables to See Notre Dame and Northwestern Game

Chicago, Nov. 20 (INS)—Statemen, leading citizens, football coaches and noted educators are to attend the Notre Dame-Northwestern game Saturday at Evanston, according to a box seat check today.

The guest of honor will be Father Charles O'Donnell, president of Notre Dame. He is to occupy a box in the Notre Dame section and following the game attend a reception in the home of Walter P. Mill Scott, president of Northwestern University.

Senator Robert M. La Follette and Senator Philip, governor-elect of Wisconsin, will be box guest of Vincent Bendis.

The Hollywood movie colony will be represented by Norma Talmadge and her husband, Joseph Schenck, film producer.

Walter Chrysler, president of Chrysler Motors, will arrive today from New York with a party to attend the game.

Borofsky's Run Wins for Memorial, 6 to 0

Brookline Memorial High football team wound up its season by defeating Trade school, 6 to 0, in its second victory since its organization last year.

Trade completely outplayed the Memorial in the first half and advanced to the 15-yard line three times, but on each occasion he failed to be scored upon.

Toward the end of the third period, Bill Borofsky, who was the big end in the Memorial line, intercepted a Trade pass on his own 15-yard line and then ran the remaining distance for the only score of the game.

1931 Amateur Golf Tourney to Be Held in Chicago

New York, Nov. 20 (AP)—The executive committee of the United States Golf Association today set August 31 to September 5 as the dates for the 1931 National amateur championships at the Beverly Country Club, Chicago.

The women's championship will be held at the Country Club, Buffalo, Sept. 21 to 25.

The committee announced that the annual meeting of the U. S. G. A. will be held here January 9 and 10.

Announcement also was made that "no action was taken on the sand wedge, an implement of controversial design for getting out of traps."

Bobby Jones, member of the committee, was not present at the meeting. No announcement was made concerning his retirement from amateur play.

The Boston College fall intercollegiate track meet will be held at Alumni Field Friday afternoon at 2 o'clock.

Dick Walters Loves Ethel
Because He Thinks She
Is a 'Good Girl'

NOVELIZED BY LEWIS ALLEN BROWNE

(From the Play by John Weider, Copyright, 1933.)

CHAPTER I

"LOOKS LIKE YOU HAD a big petting party on for to night, Dick."

"None," Richard Walters said, thickly, as the barber was whisking a fine dusting of talcum on his face.

Sid Cavanaugh, reporter on the Globe, laughed derisively. "Not! I suppose you're getting prettier up to go over to the Y. M. and read the 'Loves of Marylins'."

"Be your age, Sid!" Walters said out of the chair, took a look at himself in the mirror and turned to his friend.

"I'm going to see the right little lady, Sid."

"Sure—that's what I said—big petting party. You would not want to get the wrong little lady."

Walters paid the barber. Sid went out with him.

"Come across to Jake's, Dick—it's got a new lot of beer and it's the berries."

They went across the street entered a cleaning and pressing establishment, walked through to a rear room and took a table. Jake brought the beer.

Wrong Idea

"What's on your mind besides beer and smoking?"

"I was thinking of the crack you made about petting—"

"Aw, that was just a joke, old man."

"Sure, I know, Sid. Only it happens that you've got the wrong idea about petting. A wise guy gets the wrong little lady—meaning the girls who like to get and go the limit, and the right little ladies are the ones he—well, you know what I mean—his hands off to him. The girl I'm going to see tonight happens to be that kind of a girl."

"There's a lot to that, Dick. A lot to it. You get kind of a yen for a certain girl and get to petting her and then you get to thinking about marrying her—see what I mean?"

"Not yet."

"All of a sudden you begin to think; you say to yourself, 'Hey, there, she's petting with me easy enough without any kink. I wonder how many other chaps get her?'"

Sid put down his empty glass.

"Great stuff, Dick. You are dead right. Never thought of it that way. You ought to do feature stuff for some newspaper."

No 'Appointment'

"No, thanks. I like my job: I'm going to be boss of the late room pretty soon. But you get what I mean. It happens I'm going to see a real girl tonight—the sweetest little angel there is. She won't be getting kink, and I wouldn't even try to get her."

"Attay boy, Dick. When you get married I'll give you a small write-up in the paper. They finished their beer, went out and separated. Walters stopped at a drug store and bought some. He didn't want Ethel to smell the beer on him. He got in his car and started noisily down the street. He was thinking that he would get a new car next month, when he got his salary increase.

Ethel Simmons lived with her mother and aunt on South St., in a tiny cottage that had a yard full of flowers and a small porch screened with ranunculus and honeysuckle.

Richard Walters brought his rather new car to a stop in front of the place, hopped out tucked a small package under his arm and went up the path.

Ethel was on the porch reading a movie magazine.

"Hello, dear," he greeted her.

"Oh, hello, Dick!"

KAUFMAN PLANNED TRIP TO CHILE

NEW CLUE IN
SEARCH FOR
MAGNATE

Woodmen Now Say Rubber Firm Head Not in Maine, Dead or Alive

Mitchell R. Kaufman, wealthy Boston bachelor, was mysteriously disappeared since on a hunting trip in the woods of northern Maine 11 days ago, planned to go to South America in January, close friends revealed today.

He expected to visit his widow of 11 years, who lives with her three children in Chile. Since the death of his wife, Kaufman has been living in the heart of the family in South America, as he had toward the end of his life.

RELY-ED STILL ALIVE

In certain circles today the theory was advanced that Kaufman, distressed by personal losses in the stock market crash, may have fled the Maine woods and gone to South America several months earlier than he had intended.

Many woodmen are convinced in their belief that Kaufman is not in the woods, dead or alive. They are, however, making much of Nov. 5 with his long experience as a hunter and with plenty of ammunition, he could have kept his life until found.

Friends of the missing man, however, contend that he may have been dead within a very few hours, either by accidental drowning or asphyxiation.

The recent play, which appears remote, has also been advanced. What baffles friends and gossips is that Kaufman's life has not been found.

TAXI TRIP MYSTERY

Woodmen in and around Jackson, Me., are making much of the trip made by a Jackson taxicab to Boston four nights after Kaufman disappeared. Relatives of the taxi owner claim he was paid \$10 to carry a man to Boston on Sunday, Nov. 9.

He said to have denied to be or his own left Jackson a taxicab and he was away two days.

The south of the hole of the Converse Rubber Co. of Malden, which Kaufman is president, will be completed today.

So far as could be learned, the audit shows that the company is sound, and in slightly better condition than it was the early spring. The company is valued at more than \$1,000,000. Banks have expressed confidence in the company.

The Hodgman Rubber Co. of Framingham, of which Kaufman is also president, is reported to be in even better condition financially than the Converse Co. Rated at \$600,000, the Hodgman Co. is said to have \$100,000 outstanding in debentures.

Making the Most of Today's Dollar

Women Seeking Assurance From Merchants of Real Value for Their Money

The first of a series of interviews with Massachusetts women leaders, giving their suggestions to those who buy goods and to those who sell them, concerning their natural and vital problem of receiving and giving full value in every purchase for every dollar spent. The second interview will appear in tomorrow's Evening American.

By MRS. NELSON W. HOWARD
Past President, Professional Woman's Club, Former Vice-President Westbury Woman's Club

WOMEN WHO have recognized the signs of the times are seeking assurance of value received for their money just as much as ever before.

If the merchant and the purchaser could be brought together in mutual confidence so that each feels protected before the seasonal changes, not only would increased activity work for the good of all concerned but the feverish buying and exchanging that comes from protracted delay in purchasing the necessities of life would be reduced to a minimum.

In the period just passed, swift production affected the quality in everything. When we bought "bargains" we often got dresses that had to be sewn over after a couple of wearings, and colors that faded in the light within a short time, and other defects of the kind.

Today the stores tell us that prices are lower for quality merchandise than ever before but many women do not really believe that the quality they paid \$10 for a few months ago can be bought for \$3 now. They want to see it demonstrated beyond doubt.

Now, with the holiday season approaching, merchants might demonstrate high quality at low cost in some sales in which the merchandise is not what we have learned to recognize as "stuff bought for sales" but is plain value. We don't want bargains that mean loss to the merchant, but honest value for money expended.

Such "plain value" sales are good but messengers offering really dependable things and not poor quality being dumped, and women would not need anything more to show them that buying was a wise investment. After all, we all want to go ahead wisely.

We have had economy preached to us and taught to us for so long, that we are bending backwards on it and not getting a perspective on just what is true economy in shopping.

This we hope to achieve through educating ourselves on what is value and what is not.

(44 cash stores, aggregating \$550, are offered to collect attendants, retail store employees and office workers, for the best, brief letters commenting on any ten articles in this series. For further information write the Shopping Economics Editor, care of the Evening American, 5 Westbury St., or call Liberty 4000.)

Chicago Financier Says End of Depression on Rests With Business Men

ALFRED STRAWN, a prominent Chicago financier, today said that the end of the depression rests with the business men.

"Instead of groaning down our productive capacity so that it will be impossible to produce the goods we need, we should develop our productive capacity so that it will be possible to produce the goods we need."

He said the end of the depression rests with the business men, and that they should develop our productive capacity so that it will be possible to produce the goods we need.

At the same time financiers have worked overtime enlarging the capital of existing industries and furnishing capital for the creation of new ones.

The responsibility of bringing business back to normal in this country rests upon the business men.

"The great problem that now confronts us is in gear down our productive machinery so that it will synchronize with our consumption capacity."

"Meanwhile, we have the difficult problem of unemployment. I regard it as a duty of every employer to contribute liberally to unemployment funds."

\$50 Weekly for News and Picture Tips

Do you want to get money for being alert? If so, the Boston Evening American offers the opportunity. Each week \$50 in prizes will be given for news and picture tips telephoned in to the News Tip Editor, at Liberty 4000.

And what is a news tip? It's the information that some thing of interest to Greater Bostonians has taken place or will take place. Do you know, for instance, that an interesting piece of news has happened, that there is going to be a business merger? That's

a news tip. If you have a camera, take a picture of some new street, while it is happening. Pictures of unusual animal poses are wanted. Low. Bring your action pictures to the American quick. Delay often spoils them for use in the American.

This will be \$10 given weekly to the best in an unusual event news tip received. \$10 for the next best, \$5 for the next best, and \$2 prizes for each of the 10 next best valuable tips. Of course, the first one who turns in the tip in an interesting event receives the award on that particular item. Anyone who is alive and alert can win.

For further information write the Shopping Economics Editor, care of the Evening American, 5 Westbury St., or call Liberty 4000.
